

## Thanks for downloading Arcomusical templates for Sibelius!

In order to put these to use with your computer right away, please follow the following installation instructions:

### for PC:

- Make sure Sibelius is closed
- Download Arcomusical.lib and add it to:

C:  
\\Users\\username\\AppData\\Roaming\\Avid\\Sibelius\\House  
Styles

- N.B. this folder may be hidden, and you'll need to activate "show hidden files"
- Restart Sibelius
- Under the appearances tab in the ribbon, go to house styles (toward the left) and click import house style and select Arcomusical, then click OK

### for Mac:

- Make sure Sibelius is closed
- Download the .lib file and add it to:

/Users/username/Library/Application Support/Avid/Sibelius/  
House Styles

- Restart Sibelius
- Under the appearances tab in the ribbon, go to house styles (toward the left) and click import house style and select Arcomusical, then click OK

If you have any questions or run into trouble, please reach out via email at [info@arcomusical.com](mailto:info@arcomusical.com). We look forward to collaborating with you!
